

Physics 6317

Ocean Acoustics

Winter 2017

Dr. Len Zedel, room C-4066

Evaluation Scheme

Assignments (3)	60%
Journal Presentations	20%
Final Exam	20%

Assignments will be standard multi-question assignments based on material presented or discussed in class. There will be three assignments.

Journal Presentations will be on classic papers or recent topical papers in ocean acoustics. The goal of the journal presentations is to promote class discussions. With that goal in mind, all students will be expected to prepare presentations on any given paper but the actual presenter will be selected at random.

The **Final Exam** will be set for three hours and will be based on course assignments and reviewed journal papers.
